Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The rejection made in the previous office action will be withdrawn in view of Applicants' assertion in their response of October 30, 2003 that the claims of the instant application are directed to novel particles and methods for effectuating vaccination in patients (page 8, paragraph 2, next to the last sentence).

Applicants further state the following: "Claims 1 and 11 are directed to unique particles that comprise an immunizing or vaccinating agent. Claims 21, 30, and 40 are directed to methods that involved delivery of particles comprising an immunizing agent to confer protective immunity in the recipient" (page 8, third paragraph, first two sentences). As a result of the aforementioned statements, the following rejection must be made:

2. Claims 1-40 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicants have not presented any actual data as to the feasibility of the particles for delivery of a vaccine to the pulmonary system comprising an immunizing agent nor of the method of delivery of particles comprising an immunizing agent to confer protective immunity in the recipient. Applicants have presented not even animal model data to correlate to human subject. Applicants are required to present evidence that their invention is enabled especially when the Applicants are of the opinion that the prior art does

not teach or suggest the elements and characteristics of the claimed invention, which is claimed to be unique and novel in its particles and its methods.

3. No claim is allowed.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

5. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Housel can be reached at 571-272-0902. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
